

Why The Future Is Impact Windows

Hurricane damage can be devastating. When debris from high wind storms become penetrating projectiles, ordinary windows and doors fail. When a failure occurs during a storm, the pressure difference between inside and outside of your residence can cause significant structural damage in seconds.

Blowing rain in a high wind storms can actual penetrate your home and deposit a large amount of water causing thousand of dollars of damage – even if your window and doors don't break. Impact windows and doors provide a safe and secure storm barrier from wind blown projectiles and blowing rain. TM windows and doors provide affordable category 5 protection.

There are many good reasons to protect your home and investment with TM Windows LLC brand windows and doors:

Savings

You can save money by lowering energy bills associated with cooling your home. Insurance companies also lower homeowner's insurance rates when approved impact windows are installed. In fact, all homes valued over \$750,000 are now required to install approved impact windows and doors in order to maintain their coverage.

With impact windows and doors installed, the homeowners saving can be dramatic. We know of one customer who annual rates dropped more than 50% from \$5,600 to \$2,600.

Safety

Most people buy impact windows for storm protection , but they provide excellent protection from unwanted intruders.

Even an intruder wielding a crow bar can't smash open a TM brand window or door. Yes, the glass will break, but it doesn't allow for passage because of the special laminated glass that is used in all products.

Noise Reduction

Another secondary benefits from installing impact windows and doors is noise reduction. Just listen for yourself how much noise reduction you can experience with TM windows and doors. This reduction is made possible from the thick laminated glass used in all of our products.

Resale Value

Would you rather buy a home with or without impact windows? It's a simple question, but given the choice most people would prefer a home with impact windows and doors. In fact, some real estates would say that a home with impact windows installed can command higher selling prices.
